6th October 2020

To Whom It May Concern:

DME Tyres have purchased several pieces of equipment from the Gradeall tyre recycling range over the past 10 years.

MKI Tyre baler
MKII Tyre Baler
Side Wall Cutter

We have found the equipment is manufactured to an exceptional level. The products are highly durable, with low maintenance required once purchased.

Gradeall tyre recycling equipment is fit for purpose. The **MKI** and **MKII** tyre baler and the **Side Wall Cutter** allows us to bale both Car & Truck Tyre bales effectively while meeting PAS 108 requirements.

The baling process also reduces the cost of transporting end of life tyres.

Gradeall support to DME Tyres in the supply, installation, and maintenance of this equipment. The services also included training of our staff in the proper use of equipment.

DME would not hesitate in recommending the services and tyre recycling equipment from Gradeall.

Your faithfully

Mr Bill Clarke
Commercial Director
DME Tyres Ltd

A handwritten signature in blue ink, appearing to be 'B Clarke', is written over the typed name and title.
