95 Belfast Road,

Newtownabbey,

BT39 9LS.

24/6/15

Dear Sir/Madam,

Gradeall International has provided us with, cost effective solutions for onsite waste management through the supply and installation of 12 Static Compactors.

These compactors were serviced and maintained by Gradeall Services during the warranty period. Regular servicing has extended the lifetime of these units, some of which are now 10 year old.

These compactor have been specify designed for Council Recycling & Amenity sites which require a high volume throughput and are definitely fit for the purpose that they are designed for.

Regards,

Michael Baker
